MOTION PICTURES

The Motion Picture Service, Office of Information, U. S. Department of Agriculture, produces and distributes motion pictures on subjects with which the Department is concerned. They are both sound and silent, and are released in 16-mm. and 35-mm. widths. Films in the 16-mm. size are available from State film libraries; 35-mm. films are available only from Motion Picture Service. They are lent to responsible agencies and persons or may be purchased outright. Prints of Department films may be obtained from 73 cooperating film libraries in the 48 States, and the Territories of Alaska, Hawaii, and Puerto Rico.

EXTRA FOREST DOLLARS. 2 reels, 16 mm., sound, color; also black and white. Running time, 13 minutes. Released 1952.

The National Forests make an important contribution to the Nation's economy aside from their production of big logs and lumber. This picture portrays the sources of products not usually linked with the forest, such as stuffing for furniture, candy, cascara, and many others. National Forests in every part of the United States make their own "extra" contribution to the Nation's welfare, happiness, and prosperity. Here is shown how wise use and protection of our forest resources, coupled with native American ingenuity and industry, can keep our forests growing their special products for extra dollars.

Available for TV. (Not in film libraries; available from regional offices of the Forest Service at San Francisco, Calif.; Denver, Colo.; Atlanta, Ga.; Missoula, Mont.; Albuquerque, N. Mex.; Portland, Ore.; Philadelphia, Pa.; Ogden, Utah; and Milwaukee, Wis. Also for sale by United World Films, Inc., 1445 Park Ave., New York 29, N. Y., for \$62.21.)
